ARYAN TECHNOLOGIES

September 2015

Newsletter

Dear Valued Clients,

We are very much thankful for your wishes and trust provided to us by showing your presence in our first decade party held at Andheri (East), Mumbai this year. It has been pleasure to share our development, thoughts and vision in the event.

Since time changes new technologies are up-coming in market, which makes our work flow easy. To en-cash these technologies for our-use in Business expansion, has become today's necessity. Aryan Technologies is taking care to provide such tools integration in software, so that client gets **All-in-One-Solutions**.

That's what we have done in past few years and as promised to you, we are ready to compete in future too. We know to provide better service with equipped solutions we need excellence team strength. It's our pleasure to announce that Aryan's team strength is increased in all the aspect to make you grow and grows with you.

Aryan's Strength:

Aryan has now 3 major departments, known as Offline Team, Online Team, and Solutions Team which is purely into consultancy.

- ❖ **Offline Team:** This team is handling software solutions and services towards Ultimate Business Solutions running in market. Up-gradation done in Ultimate software are such as Excel Reporting, Auto PDF/Excel Report Emailing, Providing Attachment Facility, Intergradations towards SMS Technologies, Departmental popup facility and many more are the recent development made in present Ultimate Business Solutions Software.
- ❖ **Online Team:** This team is purely into Online Development & Implementation Solutions. Solutions such as Web application, Website Development, Online ERP Solutions, Mobile App Development, Integration towards Offline –&- Online Solutions and many more in Web Base Solutions...
- ❖ **Solutions Team:** This team is purely into Consultancy Solutions, which helps client to Significantly Improve performance of their Business, the consultancy is towards Management / Leadership, Business Assessment, Quality Assurance Solutions, ISO Certification, Insurance and Risk Management, Labour laws, Sales Enhancement and many more... as, we Focus on Issues & Ideas rather than Titles & Personalities.

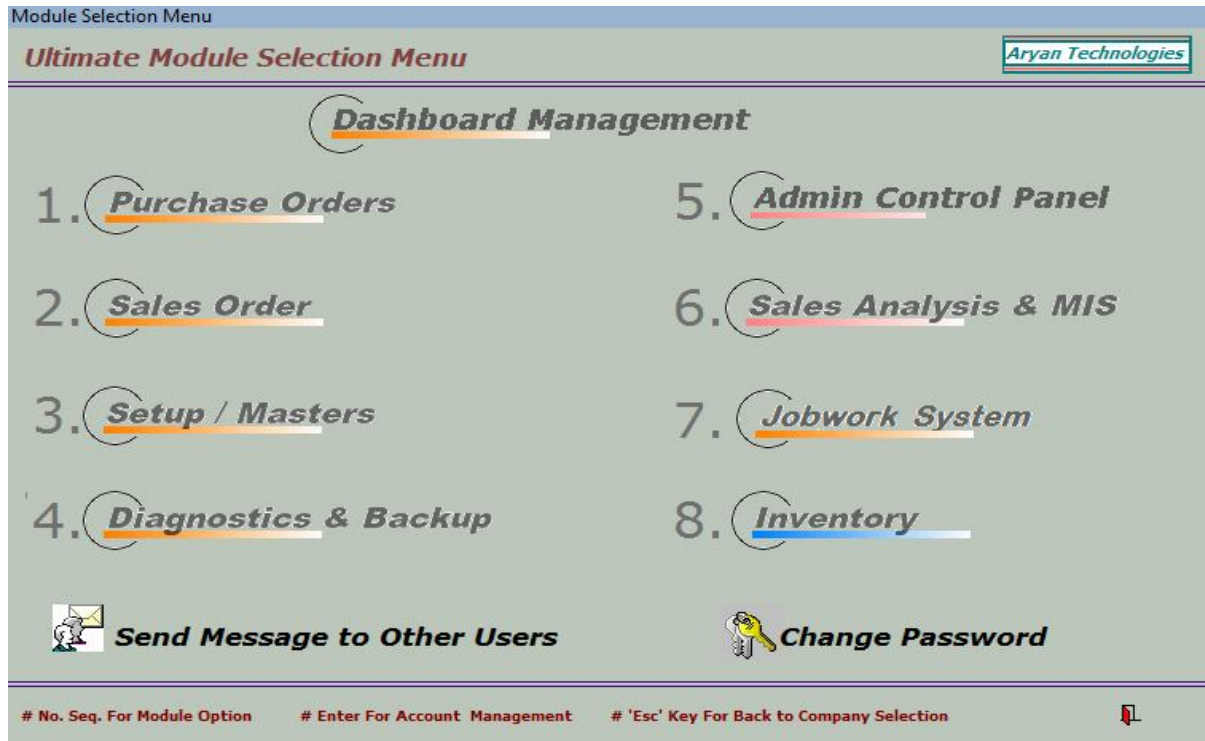

We have taken steps further to make our vision and mission successful as promised to you in our decade party. We would like you to provide us an opportunity in any of above solutions to provide our excellence services in your Business Expansion. As you find all-in-one solutions under one roof, you will get all integrated Solutions at one centre point. We have also Hardware Solutions provider, who are associated with us. So, your various problem Solutions are found at one location named '**Aryan Technologies**'.

**As we can-not spell
S_ccess without 'U'
We Care For Your Success.**

Latest Development in Offline Software

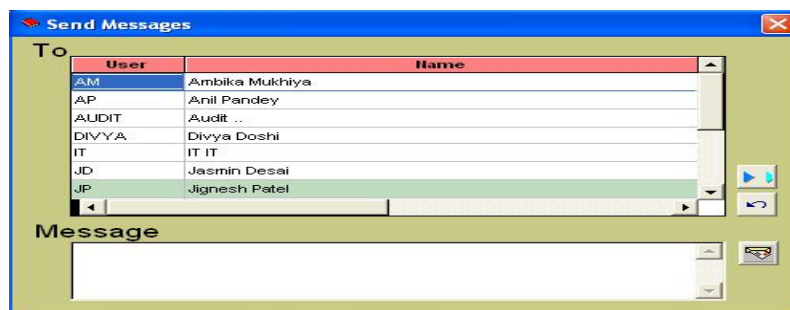

Screen Look is Changed Module wise i.e. For Departmental Use:

We are in process of developing **Q.C. Module & Excise Module** separately, as these modules are ready with us but incorporation with new system is in process...

Benefit of this kind of screen:

- ✓ Each User will be defined with its Department Rights,
- ✓ User can view only those area which are allotted in Department Module,
- ✓ Quick search and easy out-put since Module wise option makes software smaller and user-friendly,
- ✓ Data Control and Popup intimation is additional control which reminds the pending works as follow-up,
- ✓ Administrator covers full rights for any department and at each department multiple users can be defined.
- ✓ Now Change of password key is in user hand and **Sending Message** to any users inside software is very useful tool for internal communication related to software work.

 - Stock availability, Offer track, etc possibilities are the basic advantage of Offline & Online software connectivity.
- **Online Erp Solutions:** Our Business Associates **M/s. Virtual Splat Softwares Pvt. Ltd.** is having expertise team, who develop/Provide Customized web base solutions. If you have huge, complex database with multiple locations and concurrent users, this team is efficient in providing such kind of solutions with ease mode. We are thankful to Mr. Vipul Parekh for joining us with his entire team. For more detail you can visit site www.virtualsplat.com
- **App Development:** We have also a team associated with us who are expert in developing and providing App base solutions. Solutions for Android Application and IOS Application are developed by this team. So get your Business Expansion and reach in market Hand to Hand.

What Solutions Team Do ???

Solutions Point: An experience team of Consultants, to guide and assist you to make your organization completely healthy. When you plan for travel, want to contact Doctor, want to buy Car, Home, etc you consult to expertise or nearest so that you are confirmed. Similarly in your Business Growth, Consultants are required to do your Business Health Checkup time to time. There are many Questions such as...

- Who does your Dirty Job???
- How you set your Targets???
- How you Identify your Gaps???
- How do you Analyze your Growth???
- How you plan your Vision and Mission???
- Why there is need to Analyze, Diagnose & Criticize???
- Why you need to take Robust Strategic Decisions???
- Why you need to Control Attrition Level???
- How you Measure & Prevent Risks???
- How you plan your Top line and Bottom line???
- Why every company needs SOP???

To get proper answer on these above questions, you require a proper consultant. Solutions point teams are having very effective solutions to your entire query.

So, what are you waiting for? Email us at info.aryantech@gmail.com
